McKee's MC Powerdrive
McKee's PD Cherri 54th
McKee's MC Cherri 38th

Lot 1A - The Right to Flush McKee's ASL Cherri 742

Terms of Lot 1: McKee's ASL Cherri 742 is open and ready to flush immediately. She is a very strong embryo producer, averaging 13 transferable embryos over her last seven flushes. The purchaser is guaranteed no less than eight (8) embryos. Purchaser pays 50% of hammer price sale day.

Lot 1B - Two embryos by WHR Sonny

Lot 1C - Two embryos by WHR Sonny

Lot 1D - Two embryos by DF Vegas

Lot 1E - Two embryos by DF Vegas

Lot 1F - Two embryos by CF Trump

Terms of Lots 1B-1F: Buyer will pay 100% of hammer price sale day. At least one 90-day pregnancy is guaranteed per two embryos purchased if work is performed at Food Animal Vet Clinic, Rensselaer, IN. Embryos will be available for pickup sale day.

Lot 1 - This may be the Shorthorn opportunity of the year! A chance to reproduce the most dominant show heifer of the year and in recent memory, DFS Cherri 205, and to create some even more exciting maternal siblings to her. This has large revenue herd bull or donor female written all over it and we could not be more proud to offer it as the featured Lot 1 of our third Frozen Gold Sale. DFS Cherri 205 was bred by the Dean Steck Family and shown by Crystal Steck, Knoxville, IL, and has been hailed by many of our industry's most respected evaluators as "as close to perfect as a female gets", and she is the only female ever to hold the titles of four state fairs, the NAILE, and the NWSS at the same time. She was Champion Female her last 8 times out and seems destined to rewrite many of the pages in the Shorthorn record books. Regardless of breed, you will not find a more ideally designed female that creates as much excitement as Cherri 205 does when she walks into the ring. Lot #1 offers you the opportunity to create your own excitement with her dam, a very fertile, very proven daughter of ArSuLu Otis with a wonderful outcross pedigree. Pay close attention to the terms of these opportunities. The seller is going to guarantee more than the standard number of embryos on the Lot 1A flush, and a better than normal conception rate on Lots 1B-1F. Whatever the price, this Frozen Gold exclusive will not disappoint.
